Stopping the World's Trade ih Opium

On the recent anniversary of lands Government affixed his signature to a final protocol at the Dutch Foreign Office which gave effect to the International Opium Convention negotiated at The Hague during the winter of 1911. 12 by the United States and the powers most closely concerned in | the question.

The signature of the Netherlands Minister followed that of United States and of Mr. Tang Tsing Fou on behalf of China.

The signature of the three Business Men ministers put the International Opium Convention into force over a field which covers approximately 475,000,000 inhabitants: China, with an estimated population of 330,000,000; the United States 100,000,000, and the Netherlands and her dependences with 45,000-000. Despite the war the signatures of the remaining nations of the world will doubtles soon be become operative from one end of the globe to the other.
